

Charter members meet in Nadur – 26th May 2010

The final mobility within the Comenius Project 'Networking Minds' was organised to Malta, right in the village of the Charter town, Nadur. There were guests coming from the other charter towns of Ockelbo , Sweden and Desborough, UK.

Throughout this visit, the groups coming from different European countries, visited the Nadur Primary School, were taken on excursions around the Maltese islands, and also joined in some local activities.

The delegations met with Nadur Mayor, Ms Miriam Portelli, were taken around the council premises, and also enjoyed an artistic exhibition in the council hall, held by a Nadur artist.

For this appointment, Nadur Mayor invited the youths and adults who will be attending the Charter meeting in Poland, in June, and they had the chance to meet their counterparts who will also be visiting Poland for the same meeting.

It was a very friendly meeting indeed, and they all felt the bond that this Charter community is presenting to us members.
