

Hunting days in Tarmstedt

On the 16th of November 4 hunters of Cisse travelled by car with complete equipment to Hepstedt/Tarmstedt, Germany. We looked forward to an exciting event.

During the small meeting in Cisse in the month of August Dr. Heinz-Hermann Holsten invited hunters for a hunt in Tarmstedt.

After welcoming the guests, we had a big meal with deers and wild boar meat offered by Dr. Heinz-Hermann and Leonore Holsten.

On Thursday morning the guests were shown a biogas factory, a farm and a riding stables. In the afternoon they got a briefing in the hunting grounds of Tarmstedt and learned hunting rules in Germany.

In the evening the “Freunde Europas Hepstedt” (FEH) and the mayor of Hepstedt, Werner Meyer invited the delegation for a special meal. Many questions had been answered. All members had a lot of fun.

Very early the next morning (Friday) the hunt started. One of the Frenchmen was successful. After a snack at midday they started again to hunt, till the darkness stopped their ambitions.

In the evening Isabelle and Guido Martens offered a meal in their house. We all had no problems with the language, because of Isabelle, she is French. Guido studied for one year in Lyon, that's why he speaks French, too.

On Saturday morning the big drive began. The hunting party followed in the evening.

After a short night our guests started early on Sunday morning to drive home to Cisse. Without any problems they reached their families in the evening.

For everybody it was a very nice meeting.

They left us, the word they always used was "magnifique"

Hermann Vehring
