

Summer study tour to the partner communities

Every two years "Friends of Europe in Naestved / Holmegaard" organize a summer study tour by bus to some of the Charter member communities.

The group in Nagycenk (Hungary) 2006

The group in Bièvre (Belgium) 2008

About 30 members of "Friends of Europe" join the trip, and we even pay all the costs associated with the trip.

The purpose of the journey is to meet people in the Charter communities and to learn about both daily life, culture and history locally and nationally. It is each time succeeded in a very good way, because municipalities have organized a comprehensive program with both the time for visits to institutions and companies and relationships with representatives of citizens and politicians with lectures and not least with good local food and drink.

The Old Mill Museum in Sary Poddvorov 2006

A wine cellar in Nagycenk 2006

Recent trips have gone to Nagycenk, Lasse and Sary Poddvorov in 2006 and Esch and Bièvre 2008. Every time we have a great experience and we learn a lot about our friends in Europe and not least, meet a great hospitality.

Reception at the town hall in Bièvre 2006

We can only recommend others to organize similar study tours, and we like to say welcome here in Naestved / Holmegaard if somebody should wish to visit us.
